3 Questions

ANSWER THESE BEFORE YOU BUILD

@realkimcoleman

QUESTION 1

"Who is this for — exactly?"

ANSWER

Not "anyone who wants this." A specific person with a specific problem. The more precisely you can name them, the clearer your whole offer gets.

QUESTION 2

"What does success look like for your member after 30 days?"

ANSWER

If you can't describe a specific, concrete outcome — you don't have a membership yet. You have content. Those aren't the same thing.

QUESTION 3

"Could you deliver value to your first 10 members manually, before you build anything?"

ANSWER

If yes, you have a viable offer. If no, the tech won't fix it. Start with the value, then automate what's working.

If you can't answer all three, that's where to start.

The tech is the easy part. The thinking is the work.
